CPR & First Aid Trained

Qualifications Summary

Mr. Kulczycki has nearly 16 years of experience in soil, soil vapor, and groundwater investigations, remediation, and environmental due-diligence. Mr. Kulczycki has experience working directly with regulatory agencies to implement the most appropriate and cost-effective remedial actions to achieve site closure and NFR/NFA status.

He has worked on various projects that achieved site closure via active remediation and/or risk-based closures in multiple state LUST and voluntary cleanup programs. His project experience includes properties involved in State and Federal RCRA Corrective Action, CERCLA and Superfund cleanup, and real estate transactions.

His project management experience includes development of scope, budget, and proposals; staff management; client interaction; technical report compilation; and regulatory communication. As a field geological professional, Mr. Kulczycki has coordinated and performed extensive investigation activities. He has been a technical reviewer of geologic and hydrogeologic settings to develop conceptual site models, investigation scope, and remediation strategy. Mr. Kulczycki is also experienced with construction management during installation and operation of complex in-situ remediation technologies and during excavation and landfill disposal projects.

Mr. Kulczycki has extensive experience in all aspects of the environmental consultation field with significant experience in:

- Strategic Planning, Budgeting and Site Closures
- Phase I, II & III ESA and Remediation
- Brownfield Investigation and Remediation
- Regulatory Site Closure through State Voluntary Remediation Programs
- RCRA/CERCLA Site Investigation and Remediation
- UST Removal/LUST Investigation and Remediation
- Soil, Soil Vapor, and Groundwater Investigations
- Vapor Intrusion Evaluation and Monitoring
- Geophysical Investigations
- Aquifer Testing
- In-situ Remediation – Thermal, Multi-Phase and Soil Vapor Extraction; Solution Injection
- Construction Management Oversight
- Regulatory Facilitation and Negotiation
- Owner’s Representative Oversight and Management for Manufactured Gas Plant (MGP) Sites
- Litigation Support
